

STATE APPROPRIATIONS LIMIT

The Arizona Constitution restricts the appropriation of certain state revenues to no more than 7.41% of Arizona personal income. The applicable revenues are primarily tax and fee collections that may be deposited to either the General Fund or dedicated funds. A.R.S. § 41-1273 requires our office to determine how state spending compares to the appropriations limit. Due by February 15, this report is to cover the spending for the prior year, the current year, and next year.

The FY 2007 calculation is based on actual appropriations. FY 2008 represents enacted appropriations as adjusted for the proposed supplemental appropriations in the JLBC Baseline. FY 2009 reflects the projected appropriations in the JLBC Baseline. Since the FY 2009 Baseline has a projected \$1.7 billion General Fund shortfall, this level of appropriations will be adjusted prior to enactment.

Our calculations are as follows:

Arizona Personal Income	
Appropriations Limit (7.41% of Arizona Personal Income)	
Spending subject to the Limit	
Spending as a % of Personal Income	

FY 2007	FY 2008	FY 2009
(dollars in billions)		
\$202.00	\$217.20	\$229.10
\$14.97	\$16.09	\$16.98
\$13.96	\$14.32	\$15.57
6.91%	6.59%	6.79%

FY 2008 Arizona Personal Income is projected to be \$217.2 billion. With a 7.41% limit, the spending cap is \$16.09 billion. In comparison, the JLBC Baseline has a FY 2008 spending level subject to the limit of \$14.32 billion, which is 6.59% of personal income.

Under the FY 2009 JLBC Baseline, the combination of General Fund and all other fund spending is \$15.57 billion, or 6.79% of personal income. The FY 2009 estimate includes an appropriation of \$727 million for Urban Revenue Sharing. These funds are not normally treated as appropriated, but prior

year legislation has structured this funding as an appropriation for FY 2009 only.

In general, the revenues subject to the appropriations limit consist of (1) taxes, (2) university collections, and (3) licenses, fees and permits. These revenues may be either general or earmarked for special purposes. The appropriation of certain other state revenues is not subject to the limit. These revenues include (1) interest and dividends, (2) receipts from sales, rentals and consideration for services, (3) federal grants, (4) donations and gifts, and (5) amounts received by the state in the capacity of trustee, custodian or agent.

The Arizona Constitution requires the Economic Estimates Commission (EEC) to determine the estimate of total personal income used to compute the appropriations limit. The FY 2008 limit is based upon the March 2007 EEC calculation, while the January 2008 report is used for the FY 2009 limit. The EEC is composed of three members: the Director of the Department of Revenue and two

members who are knowledgeable in the field of economics - one appointed by the Speaker of the House and one by the President of the Senate.

On the reverse side of this sheet, there is a numerical history of the appropriations limit. To save paper, we have not attached a copy of our detailed calculations. If you would like a full copy of the report or have any other questions, please contact our office.
